

Comment on the proposed designation of *Cylindrella goldfussii* Menke, 1847 as the type species of *Holospira* Martens, 1860 (Mollusca, Gastropoda)

(Case 3047; see BZN 55: 87–89)

Lance H. Gilbertson

*Orange Coast College, 2701 Fairview Road, P.O. Box 5005, Costa Mesa, California 92628–5005, U.S.A.*

I wish to express my support for the proposed designation of *Cylindrella goldfussii* Menke, 1847 as the type species of the pulmonate snail genus *Holospira* Martens, 1860. *C. goldfussii* is a well-documented species that has been known for over 150 years. It nicely exhibits the classic *Holospira* quadrilamellate internal shell condition. Unlike the present type, specimens of *C. goldfussii* are found in the collections of several major archival institutions and are alive at the type locality.

I urge the Commission’s expeditious approval of this application. It will eliminate a major obstacle regarding the classification of species assigned to the subfamily *HOLOSPIRINAE*.

Comment on the proposed conservation of the specific name of *Corisa propinquua* Fieber, 1860 (currently *Glaenocorisa propinquua*; Insecta, Heteroptera)

(Case 2958; see BZN 55: 20–21)

P. Štyr
